Weekly Report

Well, this week was pretty light.

Had several comms with Georgia (most of them already cc'd) regarding their operations. Still have not received the answer from Mary regarding the several points that Yarko wanted to find out about. Per the stats, there must be only one student on the Sauna. They were going to move it to another Doctor's office (Chinese, they said) as the last one turned out to be a pervert. Maria Delgado is running the housing as Don was removed because of ethics matters and seems like he'll be going back to Mexico for ethics and auditing. (Heard something about divorce because of his out 2-D, but it's a secret)

Maria is also the DSA of the center and will help me run the programs and report the compliances. Mary was very happy about a meeting with the Lt-Governor as a very good PR thing. Basically, she says that everything is all right and she's on top of everything.

That's all I can remember now.

This is true,

---
