**NARCONON OF GEORGIA**  
**EXECUTIVE DIRECTOR WEEKLY REPORT**  
W/E: 3 January 08

**1. Major Products:**

Our new legal admin staff member (Allison) audited the files and got them more in compliance. This was a major project being worked on for the last two weeks and we will do the final audit next week. (They were more out of compliance than I had imagined from Charles.)  
We had a great New Years party with a band and karaoke.

**2. Situations Found:**

There was a couple of girls who used to be on the program who were on the lines of some students who lived outside of housing and there was partying going on. The student were recovered and given an ethics handling and an issue written on the ex-students.

Every Narconon in the country was mentioned at the event except us and we have done some great things this year. It was quite embarrassing to be at the org and have my friends ask why we weren't mentioned. And there really is no good reason that I can think of.

A dissatisfied public from Stone Hawk has been attaching every one of our press releases to entheta sites. I am in communication with him and at least he is talking to me about this. I asked him why he would attack a press release about how we helped children this year and that prompted an email from him and a discussion.

**3. Situations Handled:**

We reported a couple of drug dealers on the new hot line that we have developed. I don't know if they have been picked up yet.

The new EO is getting trained and this will help avert many situations.

**4. Progress Completed, New Programs Implemented, Results From Programs:**

A key program I am working on is making the housing as good as the Narconon program is. We have put in tighter schedules, intakes (to ensure that the students clearly know that these are separate companies) and a chitting system.

Another great thing is that we found out as a non-profit we can get free tickets for major events in town. We are scheduled for Thrashers and Hawks next week. This week-end everyone is going to a science museum. Events are going to be part of the calendar that we will publish on the website for housing.

Handling the housing will make it easier to get products with Narconon.

**5. Promotional Actions and Products:**

We got out 3 press releases and templates for redesign of two websites. The web sites will be upgraded as soon as I get done writing the copy. PSAs are up again.

**6. Major Changes Worked On:**

I am working hard on upgrading everything top to bottom at Narconon and housing as I work towards the day when Narconon runs everything. In the meanwhile, there is a bit of out-exchange, but I don't have the energy to fix everything and have a fight on my hands at the same time.

**7. What is Being Worked On:**

See above.
